

Miss Morlock's Helpful Hints

To help your child with math, instead of telling them the answer you could ask these questions:

To promote problem solving

- What do you need to find out?
- What information do you have?
- What strategies are you going to use?
- Will you do it mentally? With pencil and paper? Using a number line?

To help students reason mathematically

- Is that true for all cases? Explain.
- Can you think of a counterexample?
- How would you prove that?
- What assumptions are you making?

Safe website for your child to practice math
